Volume 9

Orthotics—Knee

A comparison of two custom-made and two off-the-shelf rigid knee orthoses in the treatment of ACL-deficient knees. Bos, Renate PMJ, MSc; Grady, Joke H, MSc; Vierhout, Pieter AM, MD, DSc; de Vries, Jaap, MD, DSc. 1997; 9:1:25-32.

Orthotics—Lower Extremity: Foot & Ankle

Development of a new ankle-foot orthosis with dorsiflexion assist, part 1: desirable characteristics of ankle-foot orthoses for hemiplegic patients. Yamamoto, Sumiko, PhD; Ebina, Masahiko; Miyazaki, Shinji, PhD; Kawai, Hideo; Kubota, Toshio, MD. 1997;9:4:174-9.

Effect of dynamic AFOs on three hemiplegic adults. Dieli, John, CO; Ayyappa, Edmond, MS, CPO; Hornbeak, Scott, MBA, CPO. 1997; 9:2:82-9.

Metabolic cost during submaximal walking with a rigid rotational-control ankle-foot orthosis: a preliminary investigation. Dufek, Janet S, PhD; Mercer, John A, MS; Kosta, Cheryl Sherwood, PT; Fish, Deanna J, MS, CPO. 1997;9:4:152-6.

New concepts in orthotic management of the adult hyperpronated foot: preliminary findings. Bowman, Gerald D, CO, MBAPO. 1997;9:2:77-81.

Orthotics—Spinal

Improved orthotic low-back support for help with low-back pain. Deamer, Richard M, MD; Anderson, Robert B, MSc. 1997;9:1:38-41.

O&P Research

Baccalaureate student research. Kapp, Susan, CPO; Wentz, George, CPO. 1997;9:1:42-7.

Body image: the inner mirror. Breakey, James W, PhD, CP. 1997; 9:3:107-12.

Facing the future of orthotics and prosthetics proactively: theory and practice of outcomes measures as a method for determining quality of services. Polliack, Adrian A, PhD, MIPEM; Moser, Stefan, CPed. 1997;9:3:127-34.

Normal human locomotion, part 1: basic concepts and terminology. Ayyappa, Edmond, MS, CPO. 1997;9:1:10-7

Normal human locomotion, part 2: motion, ground reaction force and muscle activity. Ayyappa, Edmond, MS, CPO. 1997;9:2:49-57.

Performance of a continuously sampling hand-held digitizer for residual-limb shape measurement. Vannah, William M, PhD; Drvaric, David M, MD; Stand III, Joseph A; Hastings, Jeffrey A; Slocum, Janet E, PhD; Harning, David M, CPO; Gorton, George E. 1997;9:4:157-62.

Pathologies

Characteristic gait patterns in neuromuscular pathologies. Fish, Deanna J, MS, CPO. 1997;9:4:163-7.

Heterotopic ossification associated with traumatic amputation. Warmoth, James E, MD; Riegel, Bram, MD; McFall, Tracy Lynn, MD; Pugh, Genevieve, MA; Alvarez, Lizette, MD; Melton, D Mark; Shelton, Angela D, RN. 1997;9:1:33-7.

Prosthetics—Knee

Design principles, biomechanical data and clinical experience with a polycentric knee offering controlled stance phase knee flexion: a preliminary report. Blumentritt, Siegmar, PhD; Scherer, Hans Werner, OMM; Wellershaus, Ulf, OMM; Michael, John W, MEd, CPO, FISPO. 1997;9:1:18-24.

Gait comparison of two prosthetic knee units. Sutherland, Jeffrey L, CO; Sutherland, David H, MD; Kaufman, Kenton R, PhD; Teel, Michael, CPO. 1997;9:4:168-73.

Prosthetics—Lower Extremity

Body image: the lower-limb amputee. Breakey, James W, PhD, CP. 1997;9:2:58-66.

Effects of design variants in lower-limb prostheses on gait synergy. Pitkin, Mark R, PhD. 1997;9:3:113-22.

Three-dimensional lower-extremity residua measurement systems error analysis. Vannier, Michael W, MD; Commean, Paul K; Smith, Kirk E. 1997;9:2:67-76.

Prosthetics—Lower Extremity: Transfemoral

Mechanical Gait Analysis of Transfemoral Amputees: SACH Foot Versus the Flex-Foot. Macfarlane, Pamela A, PhD; Nielsen, David H, PhD, PT; Shurr, Donald G, MA, PT, CPO. 1997;9:4:144-51.

Transfemoral amputee physiological requirements: comparisons between SACH foot walking and Flex-Foot walking. Macfarlane, Pamela A, PhD; Nielsen, David H, PhD, PT; Shurr, Donald G, MA, PT, CPO; Meier, Kenneth G, CPO; Clark, Rex, MPT; Kerns, Janelle, MPT; Moreno, Michele, MPT; Ryan, Beth, MPT. 1997;9:4:138-43.

Prosthetics—Lower Extremity: Transtibial

Proper time for permanent prosthetic fitting. Lilja, Magnus, CPO; Öberg, Tommy, MD, PhD. 1997;9:2:90-6.

(continued from previous page)

Prosthetics—Suspension

The incidence of dermatological problems in the silicone suspension sleeve user. Lake, Christopher, CP; Supan, Terry J, CPO. 1997;9:3:97-106.

Prosthetics—Upper Extremity

Design concepts for an endoskeletal child-size hand. LeBlanc, Maurice, MSME, CP; Setoguchi, Yoshio, MD; Bowen, William D, MSMSE; Miner, Cameron, MSME; Burkholder, Frank; Chen, Steven. 1997;9:3:123-6.

Effects of prosthetic training on upper-extremity prosthesis use. Lake, Christopher. 1997;9:1:3-9.

Prosthetics—Upper Extremity: Transhumeral

Friction-free cable system: alternative cable system for transhumeral-level conventional prostheses. Esparza, Waldo, CP; Ivko Sr., Joseph J. 1997;9:3:135-6. □

INTERESTED IN RECEIVING COPIES OF ARTICLES THAT HAVE APPEARED IN THE *JPO*? WELL, LOOK NO FURTHER!

Photocopies of articles are $1 per page. Professional color and black-and-white reprints are available; prices vary depending on the size and specifications of a request. For more information or to place an order, please contact the Customer Service Center at (703) 836-7114. Please have the name of the article and the issue number, date and page numbers ready when you call.

The focus of CEC 5-97 will be Materials Science.

Presentations will include:

- A five-hour presentation by A. Brent Strong, PhD, focusing on polymers, basic material properties and the nature of components.
- A thermoset polymer presentation by Douglas A. Taylor, CP
- A thermoplastic polymer presentation by Gary G. Bedard, CO
- Gait and Pathomechanics modules 1, 2, 3, 4, 5, 6
- Practice Management modules 4, 5, 7
- The last scheduled offering of Patient Management module 3
- and much more!

Special Offering:
O&P Marketing and Professional Relations, Module 2 of the Practice Management Certificate Program, will be offered on Thursday, Nov. 13, 1997, from 1 - 5 p.m. All ABC-certified practitioners are invited to attend this presentation.
Registration fee: $60
